Ruth, David

I have sent you two emails today I have received regarding concerns about representations under regulation 14 and 16 not being included in either the Consultation Statement or forwarded to me as part of the regulation 16 submissions. Please could you forward these emails and this one to the Parish Council and ask them for a response on the regulation 14 consultations and whether there are any omissions from the representations referred to in the Consultation Statement. I also ask you to confirm that I have received all the regulation 16 submissions.

I can then respond to the authors of the emails I have forwarded to me. Please note any responses from yourself and the Parish Council will be made public in my examination report.

regards

Robert
